

Cook

A glass lid rice cooker in which you can see the flavor

By increasing the thickness of the glass lid rice cooker, we made fire adjustment unnecessary, which was said to be the difficult part of cooking rice over a direct flame. The whistle on the top of the lid will let you know when to stop the flame. Once it whistles, stop the heat and let it steam for 15 minutes. Using the steam heat stored in the glass lid rice cooker will draw out flavors from the rice. The lid is a heatproof glass. Being able to see the rice cook is exciting and also worry free. All parts are made in Japan. Use this glass lid rice cooker with a glass lid to enjoy the rice flavors from a direct flame, inherited from ancient times.

For microwave

Cross-sectional view

The thick bottom of the rice cooker will adjust the heat that is transferred to the rice.

This rice kettle's rice bowl retains the flavor

Since the bowl has water-absorbing properties, it appropriately absorbs excess moisture from the rice, making a flavorful rice where you can see each separate grain. When reheating in the microwave, the water that was absorbed in the bowl gets released, forming a soft rice.

Microwave safe.

A pot surrounded by everyone

The pot with a glass lid is shallow and broadly shaped. To efficiently transfer the heat to the ingredients, the bottom of the pot is thin, while the side surfaces were increased in thickness to add extra insulation. Enjoy various dishes such as warming pot cuisines during the winter, and for the spring, summer and fall, enjoy stews and risottos. The simple design of the clay pot can be used to cook in the kitchen and can be brought out directly to the dining table, just like using a large plate. As the glass lid is heatproof, it is worry free as you are able to see the inside while it is cooking.

Four-layer Structure + Non-stick Coating

The four-layer stainless steel and aluminum pan conducts heat evenly to cook delicious rice. Since the inside is coated with a non-stick polymer, rice hardly sticks to the pan. The pan can be used for simmered dishes as well.

Compatible with IH Cooking Heaters.

Low heat + let cooked rice sit for 15 minutes after turning off the heat

The feature is the measurements that can be seen from inside

Considering the line of sight when using a measuring cup, we placed markings that are clearly legible when viewed from the top. This has measurement markings not just for fluids, but for sugar and flour as well. Being heat resistant glass, these are safe when preparing hot water in a microwave.

One shake is 1/2 teaspoon A measuring spice jar

As one shake is equivalent to 1/2 teaspoon, it will prevent you from excess salt or sugar intake. The heatproof glass jar makes it easy to know what's inside, and can be useful for dry herbs, and for refills on granular seasonings, as well as salt and sugar. Colors and smells are difficult to transfer, and it is safe to wash using hot water, dishwasher, and dish dryer. You can always use it cleanly.

An opening that can pour directly.

A three-hole opening to pour salt.

A measured opening that pours 1/2 teaspoon.

The underside of the top cap can be used as well.

* In order to measure 1/2 teaspoon, close the lid opening, and flip upside down 180°. Return it back to its original state and turn the lid opening to the 1/2-teaspoon opening.

Can be stored inside one another.

Removable packing.

Microwave safe.

Rectangular storage containers made entirely of heatproof glass

The lid and body of these storage containers is made from heatproof glass. Due to its rectangular shape, space can be effectively utilized when storing. They can also be stacked on top of each other. The top surface has a clear appearance, and it is possible to view the inside of the container from the side. This product is microwave safe. Furthermore, by removing the lid, it can be used in the oven as well. The size differences make it possible to store each container inside each other making compact storage possible.

Overnight glass salting bowls easily display your favorite vegetables

Due to its clear and simple design, the glass overnight salting bowl enables you to see the colorful vegetables, which makes it look nice even on the dinner table. Because it has a lid, you can refrigerate it directly after salting. The bowl is made out of heatproof glass, and it prevents colors and smells to stain, and can be washed with hot water, dishwasher, and dish dryer. This product comes with Chef Akiko Nakayama's recipes.
